***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the claims are drawn to a method of preparing 1,3-dichloroacetone and subsequently preparing epichlorohydrin. The closest prior art of record, i.e., references listed on the attached PTO-1449, teach the preparation of dichloroacetone and epichlorohydrin; however, the closest prior art fails to teach or suggest the second step of the instant process, specifically, disproportionating monochloroacetone in the presence of a platinum catalyst, chloride, and water. Accordingly, the instant claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne Eyler can be reached on 571-272-0871. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
